04 / THE LABORATORY

Pau Alcázar.

Software Engineer · Data & AI Consultant

PROFILE

I turn complex problems into software people can use. My work connects data, engineering and the experience on the other side of the screen.

Barcelona, Spain

LinkedIn ↗

GitHub ↗

PROFESSIONAL EXPERIENCE

Accenture

Data & AI Consultant · Analyst

Professional experience in data and technology, connecting analysis with implementation.

EDUCATION

Computer Science

Universitat Politècnica de Catalunya (UPC)

SELECTED PRODUCTS

ATHRA

An athlete analytics application connecting FIT imports, training load and recovery indicators in one place.

`github.com/drpauu/athra`

TRACKFLOW

A planning application bringing coaches, athletes and weekly training into a shared workflow.

`github.com/drpauu/TrackFlow`

CAMÍ CURT

A Catalan geography game that turns the comarca map into a daily graph puzzle.

`github.com/drpauu/camicurt.cat`

TECHNICAL PRACTICE

TypeScript · React · Python · C++ · Node.js · Git · SQL · PostgreSQL · MongoDB · Supabase · REST APIs · Data processing · Graph algorithms · Automated testing · Linux · CI/CD · Application security · WebGL

BEYOND ENGINEERING

High-performance sport. Catalan, Spanish and English.
